1	I am an older student and very thankful for the opportunity gbc helped create for me.	8/11/2015 1:27 PM
2	The electrical classes need more equipment and hands on training. If I had known what i know now I would have moved and joined the electrical JATC program so I was more knowledgeable about high voltage and the safety precautions associated with my field. The program focuses more on book work and while theory is a huge portion they simply do not have enough time or training supplies to have students learn how to terminate high voltage with the proper ppe in an industrial environment. 2014/2015 instrumentation was very helpful but they did not have the full funding for complete setup of training supplies however I feel more comfortable working with instrumentation at this point, but I am currently a construction electrician and have yet to put to use any of my electrical school training.	8/4/2015 4:02 PM
3	Since I am continuing for my Bachelors I haven't put my Associates degree to use, so many of the questions didn't apply. I currently work full time and am also a mother of three and some of the course were offered in the middle of the day which isn't really convenient to working students. Also some of the classes are only offered every other semester which was inconvenient at times. Also sometimes I felt that many courses could have been offered online. As far as advising goes, when I first started my GBC self service wasn't available so you had to contact a campus advisor and unfortunately I was advised multiple times incorrectly so I have taken many courses that did not count towards my major, which was frustrating. However with the help of My GBC self service advisement report it has been really helpful and once I was accepted in to my program the advisors have been great but the on campus advisors not so helpful. I know I am not the only person that was advised incorrectly.	8/4/2015 2:23 PM

4	I'm glad that I took the opportunity to attend school at GBC. The classes that I took helped me to become a better student and to learn how to study and do well in school. Now, I am almost finished with a bachelor's degree at a university and I'm grateful that GBC helped me to get there.	8/4/2015 9:55 AM
5	GBC has been great I am having a hard time finishing my Associates in Human Services due to needing intern time and having to work full time. It is hard to do in Ely.	7/31/2015 10:14 AM
6	Great and caring staff	7/29/2015 4:00 PM
7	My only regret is that I could not have attended longer. I loved my experience at GBC! Best science department ever!	7/29/2015 12:28 PM
8	GBC is a wonderful college and was a fantastic experience for me. It has prepared me to continue my education and motivated me to reach my goals.	7/29/2015 10:50 AM
9	I am currently working towards my Bachelor's Degree in Elementary Education. The faculty in this department is wonderful. Everyone is friendly and helpful.	7/29/2015 8:37 AM
10	Was misled by the academic advisors and ended up using an instructor as my advisor as he gave me more accurate information. The misled of information caused me to scramble last minute to finish a course to graduate. The only reason I was able to finish was because the "required" course instructor knew me and allowed me to enroll 3 weeks late into the semester. I am not the only student who has had this problem as another student had to enroll in a summer course just this summer to finish her degree due to wrong information. The only thing that GBC helped me with was to finish my general education.	7/22/2015 2:25 PM
11	Need more bachelor degree choices such as early childhood education and development and/or infant education and development.	7/21/2015 11:21 PM
12	Most of my neutral marks were because I was quite proficient in these areas already due to my time in the military. However I will say that I was able to put good use these skills, so I do not feel that I was working below my skill set in organizing ideas, thinking critically, technology, learning and seeking information. Also, I am not employed because I am continuing on with the 3 + 1 program in social work and am still using my post 9-11 GI bill to do so and that is what allows me to continue without employment. Thank you.	7/21/2015 9:27 AM
13	Initially began my education through GBC in Elko. Had to actually move me and my family to Elko to get anywhere with it.	7/21/2015 8:40 AM

2	Mary swetitch and Veronica from the ely center motivated me and helped me graduate with my bachelors degree in less than four years. They always were intrigued with hard work and success. I owe them a thank you.	8/4/2015 4:37 PM
3	Great Basin College is a great College that has grown to have many programs available to students. I feel that the teacher to student relationships was a huge plus and that the small class sizes greatly benefited myself by having a closer relationship to the instructors. I especially thought that the availability of online courses through GBC helped me achieve my goals and graduate with a Bachelors of Applied Science in Instrumentation as well with my Bachelors in Management Technology. Lastly as for the advisors at Great Basin College I believe that the advising group needs to learn more about what courses are required for a student to complete a degree. I have experienced on several occasions advisors not being able to educate students on what courses are required for my degree. While I was there I reached out to multiple advisors seeking help trying to find which courses were required for me to take to receive the two Bachelor degrees that I finished. After some time I was able to find Chris Marshal who was very knowledgeable of not just the technical programs like the Bachelors of Applied Science in Instrumentation which I received, but also my degree in Management Technology as well. She was very professional and seemed to be the only advisor that truly cared about the students. I believe that Great Basin College is very lucky to have such a devoted and caring employee. In closing I would like to state that I would recommend anyone to attend Great Basin College.	7/29/2015 4:47 AM
