GBC Graduate Student Learning Outcomes

Q7 Please provide any comments to the faculty in your program that will help them make improvements.

Answered: 46 Skipped: 74

#	Responses	Date
1	All was great	4/19/2016 10:29 AM
2	Discussion boards do not aid in constructive learning.	4/14/2016 4:39 PM
3	NA	4/14/2016 12:14 PM
4	I received my Associates in human services. My internet connection would not run the survey right.	4/14/2016 8:49 AM
5	This degree has been priceless to my teaching practices and I feel that all elementary education majors would greatly benefit from the early childhood curriculum. The degree that I received at GBC was superior to the degree obtained through a prominent University.	4/9/2016 6:03 AM
6	So glad that this was available in our area. I was very thankful for the online courses!	4/7/2016 10:35 AM
7	Most of my criminal justice teachers were great. There were a couple bad apples. Mostly because they themselves worked full time and taught on the side. So, at times, I felt neglected. Mackey is the best!!!	4/6/2016 3:08 PM
8	It was a good program	4/6/2016 2:34 PM
9	Teach diagnostics in hydraulic components and electrical troubleshooting.	4/6/2016 9:14 AM
10	Please broaden curriculum to include other industry sectors beyond mining.	4/6/2016 7:34 AM
11	very satisfied with faculty	3/30/2016 8:49 AM
12	Keep doing what you do.	3/27/2016 8:50 AM
13	When I first started the program it was very good. Classes were taught in person at least once per week. The last year most everything was taught on line. I don't find posting and email and then responding to two other posts a "good education."	3/27/2016 5:48 AM
14	Include as many case studies as possible of real world issues. These would include examples of successful and unsuccessful organizations and why these results occurred.	3/26/2016 9:15 AM
15	Not enough training on Allen Bradley. School caters to mines too much and hurts students who don't have a daddy or relative who can get them in the mines so more Allen Bradley rsl logix training is standard in many food manufacturing companies that employ lots of people	3/25/2016 10:11 PM
16	No comment	3/25/2016 2:50 PM
17	Keep up the good work	3/25/2016 9:32 AM
18	I have been very successful with my education. I do not have any comments for improvement.	3/25/2016 7:34 AM
19	I thought the program was excellent. The only thing I would say is that Professor Charlebois needs help running the program, She is one busy lady at the school. Get her an assistant or two or three that she can rely on so she is not so swamped between that and the Social Work program. She is a fantastic instructor.	3/23/2016 6:52 PM
20	I loved all of my degree specific classes. I however had issues with some of the classes I was required to take to make myself a "well rounded" student. Being that I had already had a full life before enrolling in college, I moved across the country and was comfortable sharing my opinions and thinking critically I don't understand why all these classes were needed. I remember wishing that there was some sort of interview process that allowed me to skip some of the required classes outside the scope of my degree such as Philosophy. I truly enjoyed my instructors in the business program. I loved that they made it clear that I could come to them with any problem, even if it wasn't class related. They made me feel more like a peer than a student and they were always willing to clarify a lesson or just take the time to philosophically ponder theories. I really felt like they cared about me and wanted me to do well. Thank you Professors, for the wonderful college experience.	3/21/2016 8:52 AM
21	The instructors are well versed and knowledgeable in their field of expertise. Many of the subjects were related well to over the road tractor trailers and mining equipment.	3/16/2016 2:34 PM

GBC Graduate Student Learning Outcomes

22	It's a great program, the professors are very helpful and always up to help on a one on one level, I loved the program and recommend it to anyone looking into the field	3/16/2016 8:15 AM
23	Teach better. More in-depth. More realistic. Not just read a textbook and answer the questions.	3/15/2016 9:10 PM
24	More focus on blueprint classes	3/15/2016 8:23 PM
25	Help graduating students find jobs easier. I still can not get a job in the electrical field.	3/15/2016 1:54 PM
26	More hands on methods would help with visual learners.	3/15/2016 12:41 PM
27	Since I graduated, the LSG program has changed for the better. My experience was less than satisfactory as there was no segue from theory to real world application. Thus, I entered the Survey world with a useless degree and have barely been hired as an unskilled technician trying to gain the practical application to attach to the theory. The catalog stated the LSG program was for working surveyors that already had an understanding, which i did not at all but was assured that I would learn through the course of the program. I did not. I'm very hopeful for the new direction of the LSG program so this phenomenon doesn't happen to anyone else.	3/15/2016 11:56 AM
28	When I graduated and got out of school, I worked for 6 months before I applied any knowledge I learned in school. The Electrical program is based on Mine Maintenance and would be helpful if there were more aspects on industrial building codes and construction design and actual building to some extent with emphasis on the correct use of power and hand tools needed for the job. I am still coming across new tools I have no idea how to use, but it is a work in progress. Also hand on troubleshooting on a variety of systems in high and low voltage situations. Showing proper terminations if high voltage systems would be extremely helpful to learn while in school.	3/15/2016 9:14 AM
29	I regret that I never took any GIS or computer science courses. I feel that would help me to have more qualities to get hired in my degree field.	3/15/2016 8:42 AM
30	More information and outreach to the community on these competencies would be helpful. Especially when the community is enamored with social work licenses.	3/14/2016 2:22 PM
31	Seems fine.	3/14/2016 10:45 AM
32	Great rogram but lacked up to date labs.	3/13/2016 9:53 PM
33	It was frustrating when they changed my degree program in the duration of my program completion, it caused confusion for the counselors and myself.	3/13/2016 8:23 PM
34	Byrum and Garcia should not take Mr. Kelly's presence offensively.	3/13/2016 8:06 PM
35	Please contact the Board of Regents for the State of Nevada Education and respectfully request that Elko GBC apply for Bachelor's of Arts in Education. We do not use Cell Biology and Trigonometry while teaching pre-k and elementary students, up to 3rd grade. Also, we need qualified and interested teachers to teach education classes. Please find a new psychology instructor for GBC. Thank you.	3/13/2016 6:34 PM
36	no comment	3/13/2016 1:08 PM
37	Awesome shop set up. Lots of money invested there but very few times used it.need more involvement in shop.	3/13/2016 9:06 AM
38	Connect more with the business community to provide more in depth experiences. Guest lectures, company tours, mock interviews with business leaders, company tours, Job shadowing, etc.	3/12/2016 12:18 AM
39	Not really for the program... I also obtained an Associate of Arts and an Associate of Science. Neither had am emphasis. Neither was on the survey list	3/10/2016 8:58 PM
40	I enjoyed all of my classes that I took in order to receive my degree. It has come in handy when I volunteer in the younger grades classrooms and when I am substituting as well.	3/10/2016 7:47 PM
41	While I was obtaining my degree in social sciences I was always working in a business setting and since I've obtained my degree it hasn't really helped me obtain a job within the social science field so it's been easier to stay within the business industry. I realize now that I probably should've invested in a business degree rather than a social science degree.	3/10/2016 1:24 PM
42	I HAD AN AAS DEGREE IN CIVIL ENGINEERING TECHNOLOGIES PRIOR TO ENROLLING IN GBC. I HAD MY LSIT WHEN I STARTED THE PROGRAM. I OBTAINED MY PLS IN THE STATE OF WASHINGTON WHILE IN THE PROGRAM. AFTER GRADUATION I OBTAINED MY PLS IN THE STATE OF IDAHO. THE STATE OF MONTANA DECLINED MY APPLICATION BECAUSE YOUR COURSES DID NOT PRECISELY MATCH THEIR IN STATE COLLEGE PROGRAM.	3/10/2016 9:32 AM
43	To extend the program. For the slower learner's two year program!!!	3/10/2016 8:49 AM
44	The fact that it is not a bat belies of science lost many job opportunities for me.	3/10/2016 8:31 AM

GBC Graduate Student Learning Outcomes

45	Reevaluate the need for humanities classes in the program. They were useless fillers that have had no bearing on my career at all.	3/10/2016 8:10 AM
46	You didn't list my Associates of Arts degree. Remove the classes such as AMS320 that mean nothing to my degree and add more rigor to classes that do mean something - such as MGT 441 (it should be much more rigorous than it is).	3/10/2016 8:05 AM
