| # | Q1: Certificate | Date |
|----|--|-------------------|
| 1 | I enjoy all the courses which I have been taken. | 8/20/2013 3:43 PM |
| # | Q1: Associate | Date |
| 1 | I started taking my sophomore year in high school. I graduated with an AA degree the year after I graduated from high school. | 8/26/2013 2:50 PM |
| 2 | Overall, I had a great experience at GBC. Although I have not found a job in my desired field, I still have hope that my opportunity will come soon. In addition, I am hoping to return to GBC in the future and receive my Bachelor's in Business. | 8/26/2013 2:43 PM |
| 3 | I enjoyed my courses and am looking forward to continuing my education when the time comes. | 8/20/2013 3:37 PM |
| 4 | College is too expensive, even with financial aid. Stop getting rid of needed classes, who needs a class called "Its hard being a kid"? We need science (more) classes, and other "general" classes that actually pertain to a field of study. | 8/13/2013 2:23 PM |
| 5 | Would like to see more 4 year degree availability. | 8/13/2013 2:11 PM |
| 6 | Completed only a few classes at GBC to finish Associate from another college; however was satisfied with advising and courses. | 8/6/2013 2:38 PM |
| 7 | I earned my associate degree in 2012 and earned a raise at my job because of my associate degree. Thank you to GBC for helping me learn at a higher level. I have a 4.0 at UNLV because of GBC. | 8/6/2013 11:04 AM |
| 8 | People in the financial department are extremely rude. | 8/5/2013 3:42 PM |
| 9 | The biology department needs to relook @ the difficulty of order of their courses. The nursing department needs to require 126 math not 120, and bio 100 not 190. Both cover concepts not remotely applicable to the nursing field. That bio 190 is not anatomy and physiology based. Bio 100 correctly covers more systems in the human body that nurses need. Bio 190 is almost strictly based around the structure and function of a cell minimal focus on the rest of the body. The math department needs to relook at the order of their classes as well. Math 120 uses concepts taught in 126, 127 & statistics (ex: probability under a curve) that are not taught in 120. Students are expected to know how to do that without being taught it, as it is not covered in 091-096. Students would benefit from more instructor acknowledgment iav, as they often focus on just their in class students. This leaves iav students feeling forgotten or abandoned. The only place I really saw this was in the math department. Professor Daniels interactions are the exception. Other instructors would benefit from adapting his style towards student interaction, as would the students. The English Department NEEDS to spend time on APA format. A large chunk of the fields that offer degrees @ GBC require this form. GBC requires all student to take English. Shouldn't GBC require the English Department teach formats that benefit all students? I did not use MLA again outside my two required English classes & I am sure this is fairly common. | 8/5/2013 2:08 PM |
| 10 | My hope is that GBC will eventually have a BA program in Early childhood Education, so I can fulfill my goal in education. | 8/5/2013 1:51 PM |
| 11 | Great school! I wouldn't be where I am today without my GBC experience! Thank you! Graduated w/ BS @ same time from UNLV as GBC. | 7/23/2013 9:42 AM |
| 12 | I transferred credits to GBC, and received good advice and assistance from Faculty Advisor James Elithorp on pursuing a BAS in Land Surveying and Geomatics. The attained Associate Degree is a stepping stone towards my intended goal. I am enrolled at GBC and have been taking courses entirely online up to this point. The experience has been very worthwhile and enjoyable. I would say that the online option offered by GBC for the major I am pursuing is a much needed avenue especially for full time employed individuals who want to further their education. | 7/19/2013 2:58 AM |
| 13 | All of my instructors were knowledgeable and helpful inside and outside of the classroom. The advisement I received from my counselor was not always correct. I found that to be frustrating. | 7/16/2013 9:37 AM |
| 14 | The almost 12 months I spent in Elko and at GBC changed my life. The nursing program was exceptional and I'm grateful to the DRC for all the help and support I received to get me through the math portion! | 7/9/2013 5:31 AM |

2011-12 GRADUATE SURVEY

| | | |
|----------|--|--------------------|
| 15 | I really enjoy GBC. I love that it is smaller and I greatly enjoyed learning with my teachers and classmates. I particularly enjoyed having Richard Kampf as a math instructor! Overall the experience was great. The only thing I would like is to have more classes available to us for furthering our education, we are limited on the bachelor degrees. However, GBC is a good starting point and a good opportunity for people especially in a mining community. Thank you for giving us this opportunity GBC staff members. | 7/8/2013 10:05 AM |
| 16 | I love the faculty at the Winnemucca Center! John Newman is an outstanding professor and has inspired me greatly. I feel privileged to have had him as a teacher. | 7/3/2013 4:49 PM |
| 17 | Would like to see a Bachelor's program for Early Childhood Education, because there is not one available now I will be finishing my degree elsewhere. | 6/30/2013 8:05 PM |
| 18 | Education inspired me to improve myself | 6/30/2013 2:07 PM |
| 19 | The adviser that I had sucked!! He never helped and he was rude. I was hoping every time I went to get good advice with taking classes or certain teachers. He never answered my questions and wasted my time. Dr. Griffith is amazing and I tell every person I know to take him. He is the best teacher I have ever had. | 6/28/2013 4:33 PM |
| 20 | I was grateful to be able to attend classes here in Ely with instructors when I could find classes that worked with my schedule. I also enjoyed the online classes and although some of them were very challenging - I feel like I learned as much as I possibly could. I am thrilled to have earned my degree and I will definitely recommend GBC to anyone living here in Ely and wanting to get their education. | 6/28/2013 1:38 PM |
| 21 | My education at GBC was not sufficient to get an interview at GBC in my field of study. | 6/28/2013 5:19 AM |
| 22 | It was great experience to attend GBC. I also made great friends. GBC helped me to find my passion in early childhood education. Thanks to GBC, today, I possess the knowledge, skills, and an education that no one can take away from me. What I learned from instructors and GBC's classes will always go with me where ever I am at. | 6/26/2013 12:25 AM |
| 23 | Colleges outside of Nevada do not accept or recognize most credits that I received at GBC. Pretty much have to start education over. Joleen at the Winnemucca branch always acted inconvenienced when I asked for help or even had a question. No professionalism. Had to travel to Elko campus every week for full day of classes. Not helpful when not allowed to deduct gas on taxes and no considerations given to us that had to travel. Would tell people to not even deal with GBC, just go to state college & not waste time | 6/25/2013 1:43 PM |
| 24 | It is great you don't have to be overburdened with debt when you graduate. | 6/25/2013 1:16 PM |
| # | Q1: Bachelor's | Date |
| 1 | The BSN program was cost effective and I am very glad I was able to complete my education at GBC. | 8/5/2013 4:27 PM |
| 2 | Depending on the teachers the experience was great. But being on an outlining campus I did notice. The treatment was different from Elko instructors. The integrative studies social science degree does not directly link into a career so that is why I'm continuing. | 8/5/2013 3:19 PM |
| 3 | In the Natural Resources Program, the program board members should conduct a little research with the surrounding entities in order to see some of the exact methodologies that are used in every day tasks. For example, see what kind of field soil tests the BLM is doing, and then conduct that same methodology in the field for soils lab or a variety of other classes. It would also have been very valuable to get more hands on field experience in other such areas that relate directly to our future job requirements. This stuff helps out with resume building. We would actually be able to have some experience instead of "learned about in college," (not sure if that makes sense). Therefore for example, tagging ducks or other avian species with USFWS at Ruby Lake or NDOW, actual up to date soil sampling as it relates to current entity uses, wilderness surveys, etc. I know it would cost money, but the NRS program would benefit greatly if GBC actually owned a facility (partnering with the Ag program) where the students can retain and experience real life work as it relates to the degrees. If the program owned a small head of cattle, not only can the Ag program use them, but the NRS program can use them for grazing studies (especially important as to how grazing directly affects sage grouse habitat in perhaps a positive affect). However, this all costs money. | 7/10/2013 6:58 AM |
| 4 | At the time the education department was doing a good job. The supervisor I had though made me feel like quitting multiple times during my student teaching. Although all the supervisors have moved on to do other things so they no longer work at the college, I would not recommend GBC at that time because of the supervisors. As long as the education department is still up and running I would recommend it to others because of the wonderful methods classes and teachers. If I could have done my student teaching with a different supervisor my experience might have been more positive on my behalf. | 7/8/2013 1:16 PM |
| 5 | Certain faculty members employed at GBC do not condone productive environments. They are known to single out people and belittle them as well as participate in practices that hinder the success of the student. Such practices as taking 3+ weeks to answer a simple yes or no question with relation to a major assignment and waiting to give said the answer till the day before or day of the assignment due date, despite the multiple attempts of the student to receive an answer over the span of multiple weeks prior to the due date. This has happened multiple times and over the course of my schooling, has been made apparent that it was quite intentional. However the possibility of making this matter known was not encouraged as there was no way to effectively make complaints to the proper people without said faculty members finding out and it in turn affecting my grade. In addition to that the adviser I had told me I had to take classes that, come to find out, were not actually required. Also it was very hard to make meetings with her, and when she said she would take care of classes, as far as getting substitutions approved and submitted, she failed to follow through which caused problems when it came time for things such as registration and graduation. My advisory was also a teacher for multiple classes making it not advisable to change advisers without holding the possibility of it negatively affecting my grades. It is because of these two teachers and the vast amount of authority they hold over the program that I would never suggest an acquaintance of mine to enroll in the Natural Resources program the GBC. | 7/8/2013 12:32 PM |

2011-12 GRADUATE SURVEY

| | | |
|----|---|-------------------|
| 6 | <p>After graduation received a 5% salary increase and within 2 years after graduation was promoted to Branch Manager position (Please note it took 2 years before this position became available) In other words, if I didn't have the BS in Surveying from Great Basin my chances for this new positions would have not been possible. To sum it all up, my cost for this education has increase my current salary to 15% from two years ago. Thank you Great Basin & Dr. Elithorp & staff</p> | 6/28/2013 9:49 AM |
| 7 | <p>thank you</p> | 6/28/2013 8:50 AM |
| 8 | <p>When I first started attending GBC, the classes were taught on site a couple of times a week. It then changed to once a week and finally all classes were on-line. The content of the classes when I finished (on-line) were watered down and I didn't feel like I was really learning anything as the instructors were making it too easy.</p> | 6/28/2013 8:37 AM |
| 9 | <p>My time at GBC was great and I learned a lot in a field of study that I have a great appreciation for. I would suggest that the social interation between sites needs to be improved, since the only thing we did as a whole was play IAV bingo. Not sure what that could be, but just a suggestion. Also, career services is extremely lacking at my off site, Ely, and I imagine is lacking at other locations other than Elko. I was not and am not currently able to relocate in search of a job and I am very unaware of what my options are other than what is available from our local (and very inadequate) unemployment office, which usually directs you to the internet database or to use a door-to-door method to search for work. One thing that I have found is that many employers have been reluctant to hire me for menial jobs (not much else available) due to me being overqualified since I have a Bachelor's degree and their thinking that I want more money. I have been employed part time at our branch campus for some time now as a facilitator, but now i am losing my current position at the hospital due to cutbacks (and money mismanagement, but that's another matter) and now I really have nothing else to tum to except GBC. So I suppose, thanks GBC for always having my back even though I am no longer a student! I really think my situation is more a matter of location and economy rather than a lack of education.</p> | 6/27/2013 3:26 PM |
| 10 | <p>I am very satisfied with GBC's education. The classes were small, and the instructors gave me a lot of help and instruction inside and outside of the classrooms. I am doing my Master's degree and I will continue with my Ph.D.. I am very thankful GBC. May God bless GBC!</p> | 6/26/2013 8:16 AM |
