

ACE MINUTES 4-4-17
4:00 PM, LEONARD CENTER SOCIAL ROOM

Present: Angie de Braga, Karen Kimber, Frank Sawyer, Mica Johnson, Fallon Godwin-Butler, David Freistroffer, Mardell Wilkins, Patty Fox, Toni Milano, and Justine Stout.

Angie announced that Black and White Movie night featuring a panel of veterans as speakers will be April 13 in the theater. ACE paid for the posters for this event and for TED talks and they are up around campus.

Dr. Kevin Hodur will make a live presentation at the spring TED event on April 13 at 6:30 pm in GTA 130. His talk will center on "Fake News, Real Consequences". Posters were handed out, and the committee was asked to encourage students, faculty, staff and community members to attend. Please bring refreshments if you can.

Toni Milano said everything is going well for production of the 2017 Argentum. We had a variety of work submitted this year including short stories and poems, as well as 39 pieces of art, including fabric art and rock mosaics and 42 photographs.

Mica Johnson reported there is currently a show up in the GBC Art Gallery, and the GBC Spring Student Art Show will be installed April 25. The art show will have a closing reception in conjunction with Argentum's unveiling on May 11th from 4-6 pm in the Leonard Center. The ceramic students will also be selling ice cream in hand-made ceramic bowls that night.

Patty Fox suggested that it would be nice to honor Cynthia Delaney at the spring art show. Cynthia has been as a part time photography instructor who has been active at GBC for over a decade. The committee brainstormed some ideas, and will discuss it further at the next ACE meeting, which is May 2 at 4 pm at Sierra Java on Mountain City Highway.

The meeting was adjourned at 4:55 p.m.
