

GREAT BASIN COLLEGE

# Dual Credit Enrollment

## WHITE PINE COUNTY SCHOOL DISTRICT

Dual credit courses are college courses for which high school students may receive simultaneous college and high school credit.

GBC and the White Pine County School District have worked together to identify many GBC courses that can be applied toward the student's high school diploma.

How does a high school student enroll in dual credit GBC courses?

The following forms only need to be filled out and submitted one time:

- Application for Admission to Great Basin College.
- Special Admission Form for High School Students (signed by student and parent/guardian).
- Information Release for High School Students (signed by student so that the GBC grades can be released to the high school).

This form must be submitted preceding each semester that the student wants to take dual credit classes:

- High School Permission Form, which lists desired courses and must be signed by the student, and either the high school counselor or the high school principal. This serves as a registration form as well.

Important note to parents: High school students enrolled in dual credit courses are treated like any other college student. The student, and not the parent or guardian, must sign the appropriate forms, resolve concerns with course instructors, access his or her own grades, etc. All fees are due before classes begin.
