

Dual Enrollment

WHITE PINE COUNTY SCHOOL DISTRICT

Dual enrollment courses are college courses for which high school students may receive simultaneous college and high school credit. GBC and the White Pine County School District have worked together to identify many GBC courses that can be applied toward the student's high school diploma. How does a high school student enroll in dual credit GBC courses?

The following forms only need to be filled out and submitted one time:

- Application for Admission to Great Basin College.
- Special Admission Form for High School Students (signed by student and parent / guardian).
- Information Release for High School Students (signed by student so GBC grades can be released to the high school).

This form must be submitted preceding each semester that the student wants to take dual enrollment classes:

- High School Permission Form, which lists desired courses and must be signed by the student, and either the high school counselor or the high school principal. This serves as a registration form as well.

The following is a list of White Pine School District/Great Basin College Dual-Enrollment Classes. Each of the following courses was approved for dual enrollment by the White Pine School District:

ACC 105	Taxation for Individuals	ENG 101	Composition I
ACC 201	Financial Accounting	ENG 102	Composition II
