

Grant Writing Classes Fall 2016

■ Grant Writing for Beginners

Have you ever wondered how grants work and how to apply for them? Then this workshop is for you! Participants will learn the basics of grant writing and what components are needed for almost any grant. This is a great starting point for anyone interested in going into grant writing consulting or in learning how their skills and expertise might lend to a strong proposal/partnership with entities eligible to apply for grants. Non-profit agencies may be willing to pay for expertise/services for a project, and may be even more willing to apply for grants with additional help from the person or people who can provide the expertise and also know how to write grant proposals.

Great for artists, teachers, community organizers, this workshop is geared toward those with little to no grant writing experience.
