

MINUTES of the
GREAT BASIN COLLEGE
FACULTY SENATE
COMPENSATION & BENEFITS COMMITTEE

Update regarding the Salary Schedule:

The salary schedule systemwide committee will meet again this Friday, May 11th. So far, the committee has determined to look at both short-term fixes and long-term solutions. The committee will create a short-term fix – to recommend changes to the currently-unused salary schedule – during the early part of the summer, using recommendations from other colleges. Of particular note are the colleges around the country deemed to be “peers” to the ones in the state of Nevada.

Professional development requests were heard.

The website was updated regularly.

The chair attended two meetings (so far) of the systemwide salary committee.

Ongoing Position Regarding Professional Development Money: As is the case at the state’s largest college, CSN, and at other colleges, the C&B committee should handle all funding, rather than splitting it up by department or to other funding sources.
