

# Health Profession Education Program (HPEP)

## What is (HPEP) of Nevada?

The Nevada Office of WICHE was created to help Nevada students afford the cost of graduate/undergraduate medical education in occupational fields with high workforce demands and a shortage of providers. In exchange for funding, recipients agree to physically reside in Nevada and practice (employment) in your professional field upon completion of your education in a health profession shortage area (HPSA) or a medically underserved area.

## HPEP Funding Available

Must be certified as a Nevada resident one year prior to submitting application and accepted into your professional program. For more information on requirements visit [nvwiche.nevada.edu](https://nvwiche.nevada.edu).
