

## ***General Education Report***

**September 21, 2018**

Department Chairs met on September 6<sup>th</sup> at 3:00 p.m. The committee discussed strategies with which to approach assessment of our updated general education program and plans for future meetings. The committee also decided to investigate what assessments are going on across departments teaching Gen. Ed. Courses beyond the instructor-generated course assessment reports. Committee members will be contacting individual instructors and departments in the near future to learn more about what assessments of Gen. Ed. Courses are already occurring on campus.
