Academic Honesty
Plagiarism
Plagiarism is presenting someone else's words, ideas, or data as one's own. When a student submits work that includes the words, ideas, or data of others, the source of that information must be acknowledged through complete, accurate, and specific references, and if verbatim statements are included, through quotation marks as well. In academically honest writing or speaking, the student will acknowledge the source whenever:

• Another person's actual words are quoted.
• Another person's idea, opinion, or theory is used, even if it is completely paraphrased in the student's own words.
• Facts, statistics, or other illustrative materials are borrowed, unless the information is common knowledge.

A nationally recognized plagiarism software may be used to check student work.

Cheating
The following are some examples of cheating:
• Recycling (using material generated for one class in another class).
• Using electronic devices inappropriately.
• Using unapproved notes.
• Unapproved discussion between classmates.
• Having others represent you in class—attend class for you, do work in your place, take exams.
• Having others do your work.

Academic Honesty
Plagiarism
Plagiarism is presenting someone else's words, ideas, or data as one's own. When a student submits work that includes the use of generative AI or the words, ideas, or data of others, the source of that information must be acknowledged through complete, accurate, and specific references, and if verbatim statements are included, through quotation marks as well. In academically honest writing or speaking, the student will acknowledge the source whenever:

• Another person's actual words are quoted.
• Another person's idea, opinion, or theory is used, even if it is completely paraphrased in the student's own words.
• Facts, statistics, or other illustrative materials are borrowed, unless the information is common knowledge.
• A generative AI is used to create all or part of a work.

A nationally recognized plagiarism software may be used to check student work.

Cheating
The following are some examples of cheating:

• Recycling (using material generated for one class in another class).
• Using electronic devices inappropriately.
• Using unapproved notes.
• Unapproved discussion between classmates.
• Unapproved use of generative AI to complete an assignment.
• Having others represent you in class—attend class for you, do work in your place, take exams.
• Having others do your work.
