

The Curriculum Review Committee met and voted to recommend for approval the following:

1. New Course:

ANTH 423 Indigenous Identities

2. Program Change:

Engineering and Physical Science Pattern of Study

i. ENGR 100 will be the general education requirement for Technology, otherwise no other change. This was approved by the Computer Department and the General Education Committee in December.

ii. Due to the addition of engineering courses to make this a 2+2 program with UNR, it does increase the credits by 4-6. The following courses will be added: MATH 285, EE 220, ME 242, and ENGR 241. ENGR 100 will replace the technology general education requirement of CS 135. The program electives were removed to accommodate the new courses.
