i. New Construction Technology Skills Certificate – For Possible Action

Dean David Stoddard presented the new Construction Technology Skills Certificate for Ely. This certificate will benefit the community, as they have only one builder and a need to expand their workforce. It will also benefit the students who earn the entry level skills certificate while they pursue a trades career if they so choose. Another interested group might be homeowners who would prefer to do the work themselves, instead of hiring someone for basic work.

Miscommunication in the Senate forced this item to be tabled for next meeting.

An email vote for Senate approval was sent out to all present Senators (or their proxies) the afternoon of October 17th.

The New Construction Technology Skills Certificate was approved by majority email vote on Tuesday, October 21, 2025.
